

# Ravenna School District Strategic Plan

We are an inclusive learning community embracing diversity and equipping all students for success...each child, every day, one step at a time.

## 1 Future Ready

Implement programming to ensure college and career readiness skills.

Provide equitable access to programming that ensures student success in academics, extra/co-curriculars, and post-high school.

Enhance equitable access to SEL services and supports.

## 2 Community Outreach and Engagement

Instill collective and individual pride in Ravenna.

Ensure equitable access to services provided at and through school.

Strengthen community connections through engagement and service.

## 3 Belief in all Students

Provide a strong foundation of core academic content through a culture of support.

Ensure equitable access to services provided at and through school.

Foster a culture of supports focused on mental health, physical health, social emotional learning, diversity, and cultural responsiveness.

### What is a Strategic Plan?

A Strategic Plan is a commitment - to our community, our parents, our students and our faculty and staff - to chart a course for how our district will meet the evolving needs of our students and families in the next 3-5 years.

### Why is the Ravenna School District Creating a Strategic Plan?

Ravenna's goal is to have a high performing school system that responds to the wants and needs of our students, families, faculty and staff. The Strategic Planning process allows us to listen to community members, students, families, and the many stakeholders in our education system in Ravenna. We also learn how we can adapt and better serve the community's needs while elevating our academic standard and overall performance in everything we do.

### What Will the Ravenna School District Plan Do?

Priorities and metrics will be established to guide our academic performance and overall learning as our students prepare for success in their chosen pathway - employment, enlistment, or enrollment in post-secondary education.

Our plan will inspire and unite our entire school community as we consider our own historic and cultural circumstances to create a future focused roadmap to success.

**“Our plan will inspire and unite our entire school community.”**

**Dr. Laura Hebert**  
Superintendent
